### Bring Your Own Device (BYOD) – compulsory for all students

For years 9 – 12, students must bring their own Laptop every day.

Certain subjects cannot be studied without the support of a laptop, as they continuously involve digital activities or access to online training and assessment modules.

Some subjects also require a “premium level” laptop, so that the device meets the minimum requirements specified for software being used (eg. graphic design and video editing).

Please see the school website for device requirements and software download instructions.
